If I remove the [app openURL:theURL]; line then it works as expected. What am I doing wrong? A: I don't know what the NSAutoreleasePool is, but I think the problem is that the openURL method that you have is not being put in the main queue. Try putting [pool release]; in the method that does openURL instead of calling it from elsewhere. Wednesday, July 28, 2010 The sky was lightening in San Francisco as one of the great battles between good and evil was being fought. The police were on duty everywhere, except a few cafés, where they were still too busy snacking on a complimentary breakfast. Some
